MISUNDERSTOOD AT THE EAST.

There appears to be a grave misapprehension at the East regarding the anti-Chinese agitation on this coast, and especially concerning its character in California. This wrong view is diligently disseminated by the pro-Chinese advocates, who allow no opportunity to escape manifestly factually sympathetic for the Mongolian. Even in the official departments at Washington there appears to be a sad lack of knowledge of the truth of the situation, and the spirit of the agitation here. For instance, on Saturday there came to the Executive of this State a dispatch from the Secretary of State, saying that the Chinese Minister had lodged a complaint that threats of a violent character had been made in this city against Chinese residents, and indicating a fear on the part of the Minister that the Chinese here are in danger of personal violence. To this the Governor responded in the proper vein. He informs the State Department that he has no knowledge of any overt acts of violence against the Chinese, nor does he anticipate any such acts.

It should occur to the Washington officials that some portion of the solicitude manifested for the safety of the Chinese on this coast might well be expended for the people of New York, Pennsylvania and Illinois. In the chief cities of those States the most incendiary meetings are frequently held, and breathings of murder and insurrection are indulged in without apparently alarming the officials of the Federal Government concerning the personal safety of American citizens. California has never been so disgraced as has either of these States by gatherings of conspiring Socialists, who have paraded the streets shouting for the death of prominent citizens and threatening them with the rope and the torch, and to seize upon their property and confiscate it. In Chicago this has gone to such an extent that open conflicts with bodies of police have been brought on, and human life has been sacrificed in efforts to preserve order. Yet we have not heard a word from Mr. Secretary Bayard protesting to the Governor of Illinois that steps should be taken to prevent such outrages or repress the mob which echoes weekly through the avenues of Chicago for the overthrow of the Government and the summary disposition of citizens who refuse to divide their worldly possessions with the riff-raff and scum of Europe that float to this shore to breed discontent, organize for the destruction of government and to break down human rights guaranteed to every citizen of the republic. The truth is, that not a solitary Chinaman has left Sacramento because of any fear of personal violence. No threats have been made against them. They have felt no alarm. They have pursued their usual vocations and have not appealed for police protection. An effort has been made, and is being made, to withdraw patronage from Chinese, and to that extent they have felt that their residence here is not to be as rich in rewards for the future, as in the past. Beyond this, there has been no alarm in the Chinese quarter. San Francisco there have been, as for years, some early demonstrations upon

He was eating the raw flesh of a deer when he was first seen, and they approached him with a gun.

They saw him in the same locality about 1 1/2 years ago. It is believed by many that the unfortunate man who was lost became deranged and has managed to live about in the mountains, and is now being sought by a party of several men who are being organized to go in search of him.

BEAUTY AND COMFORT.

The button-hole bouquet is there for beauty. The overcoat for both beauty and comfort. We have plenty of just such overcoats, and plenty that are simply for comfort without thought of beauty at all.

This is a brief summary of our stock: Dress Overcoats, \$18, \$19, \$22, \$25, \$25. Newmarkets, \$20 and \$22.50. English Fur Beavers, satin lined all through, \$35. Heavy Overcoats, \$6 up to Reversible Ulsters, \$13.50.

Referring to the Shoe we are about to call attention to, a lady remarked within our hearing yesterday: "That is one of the best things I have ever seen. It can't hurt the ankles and must support them."

The lady was right. The "Corset Shoe" is certainly a valuable idea. It is intended to strengthen the weak ankles of children and misses. This it does effectively by means of half a dozen small whalebones placed vertically on either side of the ankle, between the leather and lining.

The number of whalebones can be increased or diminished according as the ankle needs much or little support. The idea is so simple and practical that everyone can see at a glance its use and value. The Shoes proper are made of the finest straight goat. The price for sizes 4 to 7 1/2, is \$2; sizes, 8 to 10 1/2, \$3; sizes, 11 to 12, \$4.
